

Coldmaster® | Designer Coldmaster

Same great features as our original Coldmaster with an attractive design that keeps foods cold, appetizing and safe.

Design

The decorative styling of Designer Coldmaster allows complete versatility. Designer has all the features of our regular Coldmaster products, but with a premium design that looks good on a buffet, salad bar or any tabletop presentation. It's the perfect way to store bar toppings in an upscale setting.

Savings

Constructed of high-impact ABS material, these pieces will stand up to rigorous use and still look good in your tabletop setting. Designer Coldmaster eliminates the labor needed to refill ice baths and reduces food waste by keeping food chilled.

Safety

The high-tech Coldmaster design eliminates the need for unsanitary, messy ice baths. Simply charge overnight to hold food temperatures at or below the ServSafe®* 40°F for up to four hours†. Clear polycarbonate lids are available to help preserve freshness, especially when serving outdoors. All pieces are dishwasher safe and NSF Listed.

* ServSafe® is a registered trademark of the National Restaurant Association

† Temperature retention is based on Coldmaster being pre-frozen for a minimum of eight hours, then filled directly with pre-chilled foods. Testing was conducted under ambient room temperatures of 76°F.

Innovative Technology. Designer Coldmaster.
