

DINEX[®]

Mobile Food Carts

DINEX® Meal Delivery Options

Portable Breakfast Cart

The patented design beats all other portable carts when it comes to flexibility and functionality. It includes a stainless steel work surface, heavy duty casters, storage bumpers, and it is NSF approved. When not in use, it folds up and stores upright in less than 2ft².

Standard Features

- Heavy gauge, vinyl clad aluminum exterior surfaces
- Stainless steel work surface
- Perimeter trim bumper
- Lockable cabinet latches
- Heavy duty casters
- Collapses to small footprint

DINEX® Mobile Breakfast Carts

Durable fiberglass carts offer greater capacity and convenient options

Pound for pound, our fiberglass base is stronger than concrete, steel or aluminum. It is dent proof, scuff resistant, lightweight, and easy to clean. With limitless color choices, the molded-in surface coat containing the color is resistant to ultraviolet attack and airborne contamination. Choose your color, options and style and enjoy the most durable cart in the industry.

Chilled Options

Chilled carts can be used multiple ways. Stock it like a cooler with ice and drinks; use as an ice chilled well with pans, or order a mechanically refrigerated cart for precise temperature control.

Ice units are available in 3-5 pan sizes. The 5" deep well accepts 12"x 20" pans up to 4" deep and includes a standard drain for easy cleaning.

Mechanically refrigerated carts utilize a 120 volt, 1/3 HP compressor to help keep food fresher, longer.
