DINEX

Racks

DINEX. Racks

A Reputation of Fine Craftsmanship

Every product is skillfully engineered with uncompromising attention to detail - for an end result that is practical, reliable and made to withstand the rigors of the bakery, foodservice and institutional environments for years to come.

Dinex engineers take the extra steps needed to ensure the highest-performing, most reliable products in the field. Not only is each piece of equipment produced by skilled craftsmen who use the most durable components available; every product is also rigorously tested before shipment.

The resulting quality is apparent – down to the last detail.

Knock-Down Angle Racks

Strength and versatility at an economical price

1" x 2" aluminum glides fully welded and shipped knocked-down to save cost. Sized for full-size sheet pans and available in capacities from 6 to 20 pans.

- Twice the welds of competitive racks
- Double welded side glides for added strength
- Assembles in minutes (fully welded available)
- · Choose from roll-in, front- or sideload models

DXP520

Universal Angle Racks

Versatile design for optimal performance

2-tiered glides are spaced to hold multiple sized trays simultaneously.

- Fully welded aluminum frame
- Glides are stepped 1" x 5" x .080"thick extruded aluminum and welded to front and back of the frame
- Accommodates 12" x 20" steam pans up to 6" deep; 18" x 26" sheet pans and 18" x 13" trays
- Available in roll-in height
- Also available with adjustable glides

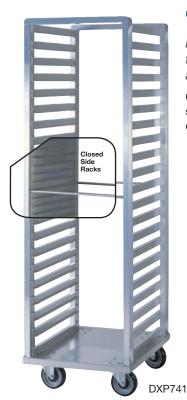

Angle Racks

Strong, practical & versatile; our most popular rack

A fully welded frame of aluminum channels. 2" glides and our signature Piper Base. Built for full-size sheet pans in 12 to 30-pan capacities. Custom sizes available.

- 1/2" diameter tie bar avoids distortion and gives greater side-to-side strength
- Signature Piper Base
- 2"-wide glides are welded front and back to the frame
- · Also available in roll-in height for freezers and proofers

Channel and Closed-Side Racks

Higher capacity, increased functionality, our strongest and most durable racks

Our channel racks use the same glide system and signature base found in our popular 941 Transport Cabinet.

- No-tip channel design allows trays to be partially withdrawn without falling
- Holds up to 41 full-size sheet pans
- Fully welded ledges are 1-1/2" inches apart
- · Choose from front- or side-load models

DXP612

Universal Guide Racks

For Refrigerators or Freezers

The extra wide guides on our universal racks accommodate 18" x 26" sheet pans and 12" x 20" steam pans simultaneously.

- 1" Wide aluminum tie bars for extra rigidity.
- 5" diameter, heavy duty, double ball bearing swivel casters with non-marking polyurethane tires.

Multi-Purpose Transport and Drying Rack

Aluminum multi-purpose transport and drying rack.

The extended wire dividers on our MPR racks allow multiple size pans and trays to be carried simultaneously.

- The pan dividers are 1-1/2" on center
- Pan supports have removable sections of chromium plated wire dividers to separate the pans or trays for drying
- 5" diameter, heavy duty, double ball bearing swivel casters with nonmarking polyurethane tires. Two casters are fitted with brakes

DXPMPR604M

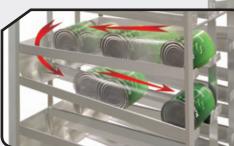

Can Racks

Durable and easy to use

Our can racks are available in many styles, including rear-loading with stainless steel worktop, mobile, and front-loading with first-in / first-out storage system

- All Heliarc welded aluminum construction
- Inclined can glides provide easy access to product and automatic can advancement
- Glides are 1-1/2" welded to the frame

Front Loading System

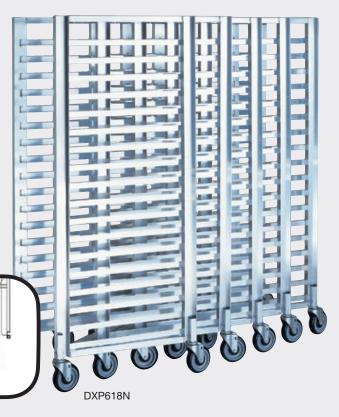

DXPCSRFF156

Nesting Rack

The ultimate space-saving storage technique for empty racks

- When empty, nesting racks fit together, minimizing storage space
- Nesting allows one person the ability to move multiple empty racks easily
- Reinforced with fully welded C-channel for strength, rigidity and stability
- 1" x 2" extruded aluminum glides welded to the frame front and back
