

Heat Lamps

Plated Foods Stay Hot Until Serving

Designed for front-of-house buffet service and back-of-house temperature control, heat lamps keep food at safe, hot temperatures before serving. Each lamp offers a variety of features like perforated shades, bendable flex arms, 250 watt bulbs, cutting blocks and drip pans. Add a classic, functional touch to your restaurant or catering event with helpful temperature control tools!

Features

Temperature Control

250 watt bulbs keep food at safe, hot temperatures until ready to serve

Classic Design

Solid wood cutting blocks and brushed metal shades accent a variety of catering and food service environments

Flex Arms

Vary heating temperatures by adjusting the curve and angle of lamp flex arms

Perforated Shades

Pre-drilled shade holes disperse extra heat and maintain even temperature

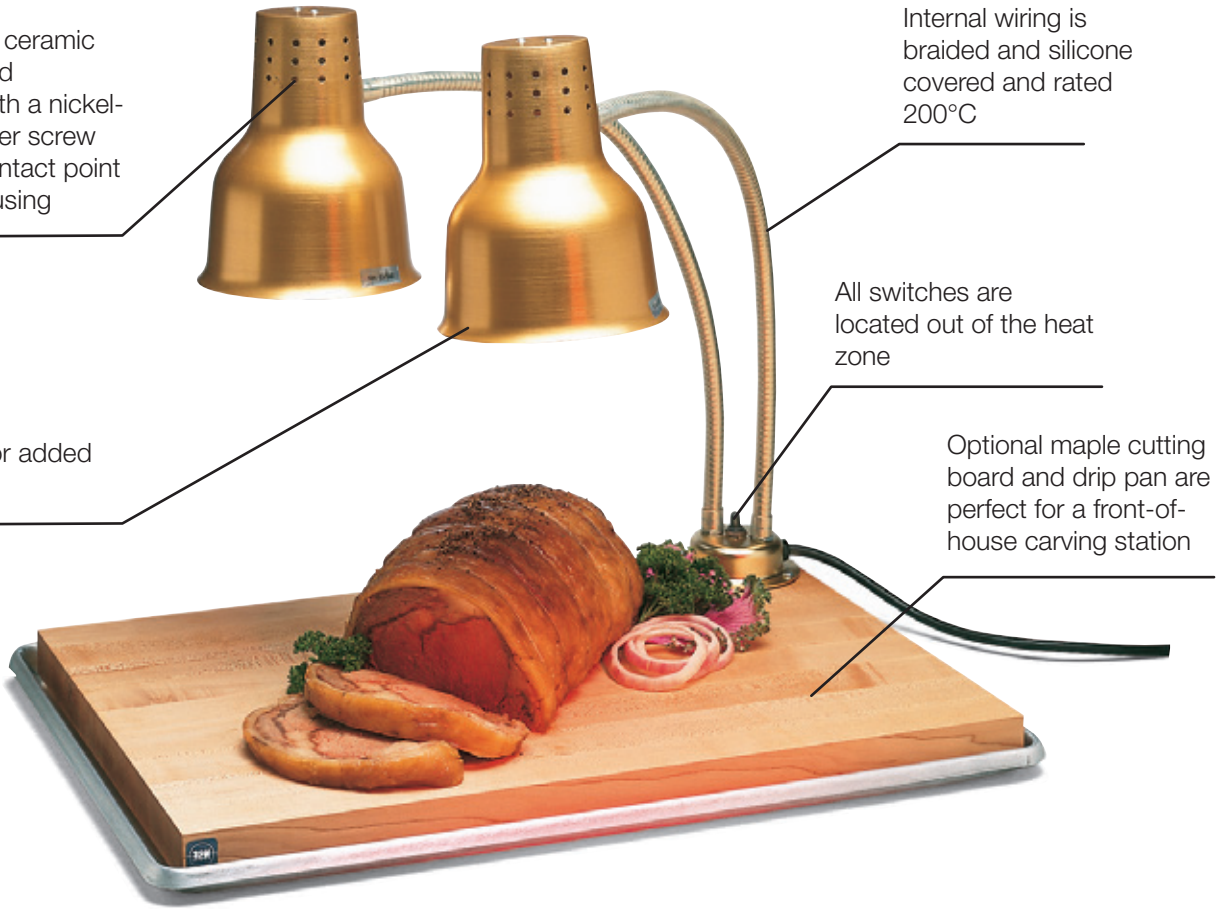

Sockets are ceramic insulated and furnished with a nickel-plated copper screw shell and contact point to prevent fusing

Internal wiring is braided and silicone covered and rated 200°C

All switches are located out of the heat zone

Flared rim for added strength

Optional maple cutting board and drip pan are perfect for a front-of-house carving station
