Dixex Solid Top units are ideal for use as worktops, for plating and for sandwich and salad preparation. This unit can also be used as a counter for other serving and merchandising needs.

The design allows it to be used in a cafeteria or buffet line-up, choosing the options and accessories that you need. All Mobile Serving Cart units are compatible and will interlock with other units.

Standard Features

- Seamless, molded FRP body with smooth exterior and rounded corners
- 14-gauge stainless steel top with fully welded square turndowns on all sides
- Enclosed base
- Underbracing for heavier loads
- 4" diameter swivel plate casters with brakes
- Interlocking mechanism is provided to interlock with other Reflections units

Dimensions

DXPR1ST – 36"H x 30"D x 28"L

Please confirm that you have the most current specification sheet by visiting www.dinex.com.

It is Dinex's policy to offer equipment which is design certified by companies that have been accredited at the federal level by the Occupational Safety and Health Agency (OSHA) and ANSI as a national recognized testing laboratory. These companies include CSA International, Underwriters Laboratories, Edison Testing Laboratories and National Sanitation Foundation. However, a continuing program of product improvement makes it necessary to submit new models to the agencies as they are developed. Consequently, all models may not bear the appropriate labels at all times.

Dinex reserves the right to change specifications and product design without notice. Such revisions do not entitle the buyer to corresponding changes, improvements, additions or replacements for previously purchased equipment.
