

Sparta® Color-Coded Brushes & Handles

Reduce Cross-Contamination

Carlisle full-color block/bristle brushes and color-coded stainless steel handles promote food safety and reduce the risk of cross-contamination. Carlisle brushes are recognized for their consistent cleaning performance and quality bristles.

- FDA compliant materials

Benefits

Narrow Handle Soft Bristles

Enable careful cleaning of jars, bottles and glasses

Color-Coded

Promote (HACCP) with and integrated color-coded system

Stainless Steel Handles

Provide rigid stability and are highly chemical resistant

Multi-Purpose

Oil resistant bristles extend life and color of brush

Crimped bristles enhance chemical retention, providing for a more efficient clean

Mixed trim angles on bristles enable superior surface contact and cleaning

Handles ideal for caustic chemicals or in a sanitary food processing environment

Made in the USA; dishwasher safe; BPA Free
