## From cafeteria to concessions, MealtimeXpress is the solution for satellite foodservice!

### MealtimeXpress Meal Delivery Solution

- Versatile bulk service unit to help maintain HACCP hot and cold temperatures
- Two models are available: a model with one hot and one refrigerated compartment and the other with two hot compartments. The hot compartment comes with convection heat elements and high efficiency fan to provide equally distributed temperature
- Can be plugged into any standard 120V outlet

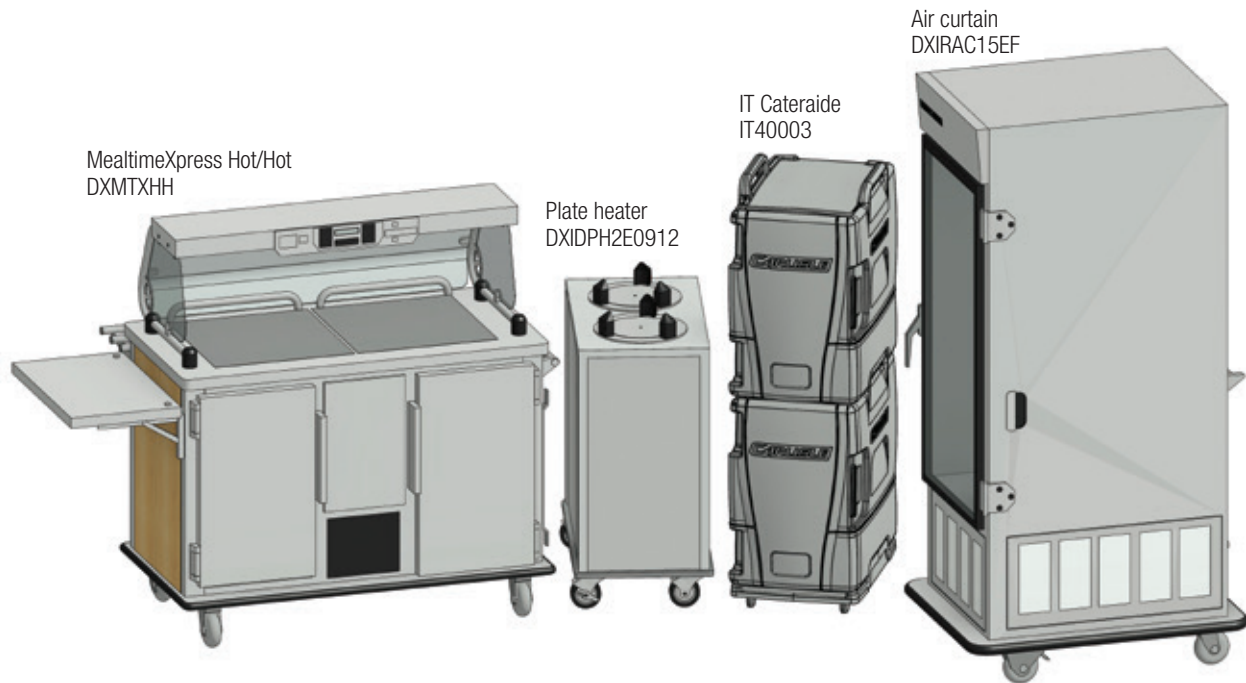

### Capacity

- Serves up to 40 meals, depending on portion size and meal variety with the hot/refrigerated version
- Serves up to 100 meals with the hot/hot version coupled with an air curtain refrigerator for the cold food items

### Added features

- Digital LCD control panel with temperature holding or temperature boosting modes
- Hardened polycarbonate protector guard with manually controlled LED lamps; two individually controlled aluminum hot top surfaces with breaker strips to prevent heat transfer to adjacent part
- Four, 6-inch caster configuration, (4) swivels located at corners for a zero turning radius
- Use Carlisle IT CATERAIDE insulated transport line to safely transport food pans from your kitchen to your serving area in satellite applications
- Easily accessible interior service components and smooth coved food cavities to provide easy cleaning
- Full perimeter bumpers and push handle included

# Build your serving station and delight your guests with a premium service at the right food temperature

## Cateraide IT Deliver your food from the kitchen to your serving area

- Extra wide sure-grip handles for a stable two person lift
- Double hinge opens fully for easy access
- Optional integrated dolly – pre-drilled holes in end loader allow permanent 5" non-marking casters (2 locking) to be added
- Built-in seal eliminates gasket
- End Loader door hinge can be removed for easy, thorough cleaning
- End Loaders offer secure stacking for storage or transport
- End Loader Dolly has 4 rotating wheels to give it unmatched maneuverability
- NSF Listed
