

Customizable TQ Supreme™ Delivery Carts, Fiberglass Trays & Tray Covers

Broadcast Your Brand

TQ (Totally Quiet) Supreme is the first meal delivery cart designed to help hospitals promote their overall brand or foodservice programs. Now employees can deliver meals with pride. Hospitals spend a lot of money enhancing the patient dining experience with room service programs, training, staff uniforms, menu designs and matching service wares. The missing piece is the cart! TQ Supreme is elegant, quiet, light and can be customized with your logo, custom artwork or sponsored message.

Paper Tray Covers

We can help you design a special tray cover exclusively for your facility. Dinex custom printed tray covers feature high-quality paper and graphics. Covers are available in standard and some specialty tray configurations.

Fiberglass Trays

Wrap one or both sides of our high-quality fiberglass trays with any image or color. The artwork won't fade or wash off.

Custom Requests

- You can provide your own artwork or Carlisle is happy to help prepare a custom design for you
- Graphic design services are available at the rate of \$50 per hour
- Contact your Dinex representative for custom specs and how to order
